Damoiselle D – multi-faceted femininity

31 January 2011

Founded by Véronique and Jean Muller, who have devoted themselves to the demanding field of Haute Horlogerie for many years, Damoiselle D is inspired by the muse of multi-faceted femininity and pervaded by graceful floral themes.

In keeping with the finest traditions, this brand achieves a delicate balance between hand craftsmanship and industrial innovation, while associating this technical mastery with an exquisitely feminine jewellery touch.

This brand exclusively dedicated to women comprises a collection of jewellery watches with matching rings, necklaces and earrings all sharing a common denominator: the magic of diamonds.
